

# Lash Regrowth Treatment

**Lash Regrowth Treatment** uses Germany's latest technology to stimulate, activate and revive your cells. Together with the active serum, it enhances lash growth naturally and permanently. It also replenishes the nutrients loss due to damages like eyelash extension and false eye lashes to achieve a natural healing process to your eyelashes.

Lash regrowth Treatment is safe, non-invasive, and painless, with no downtime or side effects.

Lash Regrowth Treatment can help to:

- 1) Promote growth of eyelash (Usually 3 – 5mm growth)
- 2) Fuller and denser sets of eyelashes
- 3) Heal and revitalize your eyelashes making it healthier

## **Q&A**

### **When can I see the effect of the treatment?**

You can see your lashes growing longer and fuller 3-4 weeks after your 1<sup>st</sup> treatment. As this treatment promotes natural growth, it will take time to promote its growth.

### **How many treatments do I need?**

You will only need 1 treatment to see visible results. In order to maximize the desired growth, we recommend 3 treatments.

### **Is it a continuous treatment?**

Most customers only require a maximum of 3 treatments. However, you can choose to take on more sessions if your desired lash length is not achieved.

**How long will my enhanced lashes last?**

It is a permanent growth, therefore, even after your eyelashes dropped in the normal cycle, it will still grow back to the length you have after the treatment.
